Benefit for the Children who are Patients at our Clinic—all live in Mexico and have serious medical conditions. Here are some of them.

Angela is age 7 and was born with shortened legs and no feet; she wears “stubbies”—precursors to prostheses.

Alexa, age 6, uses a wheel chair; she has spina bifida with no movement below the waist.

Dulce, age 9, needs a walker to help her mobility.

José, age 2, wears ankle-foot-orthoses (braces) on both feet to give him stability for walking.

Tickets are \$75 each or a table of 8 for \$1,000. Tickets available from:
